“LETTER WRITING COMPETITION”

AWARENESS FOR VOTING

Date- 16-11-2024

The competition invited participants to write a letter on the theme: "Why Voting is important: My Role in Shaping the Future of My Nation." The letters were expected to highlight the importance of voting, the responsibilities of citizens in a democracy, and the ways in which the electoral process affects the nation's future. Submissions were open to a wide range of participants, including students, youth groups, and other members of the public, ensuring broad community involvement

The competition invited participants to write a letter on the theme: "Why Voting is important: My Role in Shaping the Future of My Nation." The letters were expected to highlight the importance of voting, the responsibilities of citizens in a democracy, and the ways in which the electoral process affects the nation's future. Submissions were open to a wide range of participants, including students, youth groups, and other members of the public, ensuring broad community involvement

This letter writing competition was a powerful tool in raising awareness about the critical role voting plays in a democracy. We look forward to organizing more such initiatives in the future to ensure that the message of civic responsibility continues to resonate across communities

HEALTH CHECK UP CAMP

DATE: 20/12/2024

The camp was organized by the college in collaboration with Mehta Multispecialist Hospital, Baramati. All faculty members, nonteaching participated in the blood checking camp. The camp was open to everyone in the college, and participants were encouraged to take advantage of the free services offered.

Services Offered:

The blood checking camp provided a wide range of services, including:

- Blood Glucose Test: To check blood sugar levels and identify potential risks for diabetes.**
- Hemoglobin Test: To assess levels of hemoglobin in the blood and screen for anemia.**
- Blood Pressure Check: To assess the risk of hypertension.**
- General Health Counseling: Health experts provided personalized advice based on the results of the blood test**

The Blood Checking Camp organized by Anekant Education Society's College of Pharmacy, Tandulwadi Road, T.C. College Campus, Baramati, 413102. (Religious Minority Institute) was an essential initiative that provided valuable health screenings to staff members.

It not only helped participants identify potential health risks but also promoted a culture of health awareness.

The college plans to organize more such camps in the future to ensure the continued well-being of its community.

INDUCTION PROGRAM 2024-2025

ARAMBHUTSAV

DATE: 03/01/2025

An induction program for students serves as a structured initiative to help new students transition into a new academic environment. It is designed to make students feel welcomed, informed, and prepared to integrate into the institution's academic, cultural, and social fabric. Below is a breakdown of the background and purpose of such programs

The Student Induction Program conducted by institute was a well-structured and impactful initiative aimed at easing the transition of new students into the academic and social environment of the institution. The program successfully introduced students to the core values, vision, and mission of the institution while fostering a sense of belonging and community.

Key highlights of the program included:

- Orientation Sessions: Informative presentations on the institution's policies, academic framework, and resources.**
- Interactive Activities: Team-building exercises and icebreakers to encourage camaraderie among students.**
- Workshops: Skill-based workshops focusing on time management, stress management, and effective communication.**
- Cultural Programs: Vibrant cultural performances that celebrated diversity and creativity.**

The program's holistic approach ensured that students not only felt welcomed but also empowered to embark on their educational journey with confidence and enthusiasm. The feedback collected from participants indicated high levels of satisfaction and appreciation for the content, delivery, and overall organization of the program.

The induction program set a strong foundation for a positive and enriching academic experience, aligning with the institution's commitment to nurturing well-rounded individual.

अनेकान्तमध्ये पालक शिक्षक मेळावा संपन्न

बारामती-अनेकान्त एज्युकेशन सोसायटी कॉलेज ऑफ फार्मसी शैक्षणिक वर्ष २०२४-२५ च्या करीता प्रथम वर्ष प्रवेशित डिप्लोमा इन फार्मसी (डी.फार्मसी) व बॅचलर इन फार्मसी (बी.फार्मसी) विद्यार्थ्यांसाठी आयोजित इंडकेशन प्रोग्राम आरंभ उत्सव २०२४-२५ व पालक शिक्षक मेळावा उत्साहाने पार पडला. प्रमुख अध्यक्ष मा.श्री. जवाहर शहा माधोलीकर व सचिव मा.श्री.मिलिंद शहा माधोलीकर यांच्या मार्गदर्शनाखाली अनेकान्त एज्युकेशन सोसायटीमध्ये नव्याने फार्मसी महाविद्यालयाची सुरुवात यावर्षी करण्यात आली. महाविद्यालयामध्ये नव्याने प्रवेशित विद्यार्थ्यांचा स्वागत समारंभ आयोजित करण्यात आला होता. याप्रसंगी कार्यक्रमाचे अध्यक्ष मा.श्री. डॉ.जविनाश जगताप सर प्राचार्य तुळजाराम चतुरचंद, महाविद्यालय बारामती यांनी विद्यार्थ्यांना गेल्या ६० वर्षांपासूनचा संस्थेचा इतिहास सांगून संस्थेमध्ये उपलब्ध इतर सोयी

सुविधांचा उपयोग करून घेण्यास सांगितले व विद्यार्थ्यांचे स्वागत करून पुढील वाटचालीसाठी शुभेच्छा दिल्या. या कार्यक्रमासाठी प्रमुख पाहुणे म्हणून मा.श्री.दीपक भारत शहा (सरफ) व मा.श्री.अभिनंदन शहा प्रबंधक, तुळजाराम चतुरचंद महाविद्यालय, बारामती यांनी विद्यार्थ्यांना महाविद्यालयातील विविध विभागांची व त्यांना असणाऱ्या नैक मानांकनाची माहिती देऊन महाविद्यालय परिसरातील शिष्ट पालनाबाबत आवाहन करून शुभेच्छा दिल्या. मा.डॉ.सचिन गाडेकर, उपप्राचार्य तुळजाराम चतुरचंद महाविद्यालय यांनी विद्यार्थ्यांना फार्मसी क्षेत्रातील जबाबदाऱ्यांबद्दल जाणीव करून दिली. त्याचप्रमाणे कॉलेज ऑफ फार्मसीचे प्राचार्य डॉ. दर्शन शहा यांनी ऑरिएंटेशन प्रोग्रामच्या माध्यमातून विद्यार्थ्यांना संस्थेमध्ये शिक्षण घेत असतानाच्या उपलब्धी जाणीव करून दिली, त्यामध्ये टीथिंग लर्निंग प्रोसेस, ट्रेनिंग अँड प्लेसमेंट सेल, रिसर्च अँड

इंव्हलपमेंट सेल, एंटरप्रेनरशिप डेव्हलपमेंट सेल, अकॅडमी कॉर्डिनेशन, एक्झाम कॉर्डिनेशन, सेल फॉर एक्स्ट्रा रेग्युलर एक्टिव्हिटीज, सेल फॉर कॉन्स्युलर एक्टिव्हिटीज, सेल फॉर कॉम्पिटिटिव्ह एक्झाम या सर्व सेलच्या माध्यमातून कशा पद्धतीने दैनंदिन वाढणारे पालन विद्यार्थ्यांना मदत होणार आहे हे विस्तृत पणे माहिती दिली, त्याचबरोबर पालकांना त्यांच्या पाल्याची कॉलेज ऑफ फार्मसी मध्ये कशा पद्धतीने जडणघडण होणार आहे याबद्दल उत्कृष्ट मार्गदर्शन केले. याच दिवशी महाविद्यालयामध्ये रंगीळी कॉम्पिटिशन आणि कन्सेप्ट मॅप कॉम्पिटिशन घेण्यात आली त्याचप्रमाणे विद्यार्थ्यांच्या इतर कलागुणांना वाव देण्यासाठी सांस्कृतिक कार्यक्रमाचे आयोजन केले होते कार्यक्रमाच्या शेवटी रंगीळी आणि कन्सेप्ट मॅप कॉम्पिटिशन च्या विजेत्यांचा व नव्याने प्रवेशित विद्यार्थी व विद्यार्थिनी मधील एक सर्वोत्कृष्ट विद्यार्थी व एक सर्वोत्कृष्ट विद्यार्थिनी यांना ट्रॉफी देऊन सत्कार करण्यात आला. या कार्यक्रमासाठी कॉलेज ऑफ फार्मसीच्या सर्व शिक्षक व शिक्षकेतर कर्मचारी यांनी विशेष परिश्रम घेतले. हॉलिव्हिडक डेव्हलपमेंट सेलच्या माध्यमातून प्रोफेसर अश्विनी तोडकरी यांनी कार्यक्रमाचे सूत्रसंचालन केले तर सुकन्या परिचारक यांनी कार्यक्रमाचे आभार प्रदर्शन केले.

RANGOLI COMPITATION

DATE: 03/01/2025

As part of the Induction Program, a Rangoli competition was organized for all Degree and Diploma students to foster creativity and execution skills. The theme for the Rangoli was aligned with the pharmacy profession and conveyed a meaningful social message.

1. Creativity and Artistic Expression

- **Design Thinking:** You learn to plan and conceptualize your Rangoli design, considering patterns, colors, and symmetry.
- **Color Coordination:** Choosing colors effectively to create a balanced and harmonious design improves your aesthetic sense.
- **Attention to Detail:** Precision in the design is key, helping you to focus on fine details.

2. Manual Dexterity and Hand-Eye Coordination

- The process of creating intricate patterns by hand helps improve fine motor skills and coordination between your hands and eyes.

3. Patience and Focus

- Rangoli often requires careful work, which can take hours. Developing patience and focus is essential to completing the design successfully.

4. Problem Solving

- During the design phase, you might encounter challenges such as balancing elements, working with available space, or choosing colors. Finding solutions to these challenges enhances your problem-solving ability.

5. Time Management

- Many Rangoli competitions have time limits. Managing your time effectively, balancing speed with quality is an important skill that you develop in such competitions.

- **Name of Evaluators:** Dr. Arti Shah & Mrs. Sonali Zargad
- **Name of Winners:** 1. Konika Kamble, 2. Anjali Dhumal

The Rangoli Competition was a vibrant and colorful celebration of creativity and culture. The participants displayed exceptional artistic skills, showcasing intricate designs and innovative use of colors. The event not only fostered a sense of teamwork and cultural appreciation but also highlighted the immense talent within our community. Each Rangoli was unique, reflecting the rich traditions and artistic expressions of the participants.

CONCEPT MAP COMPETITION

DATE: 03/01/2025

As part of the Induction Program, a concept map competition was organized for all Degree and Diploma students to foster their presentation skills. The theme for the concept map was aligned with the pharmacy profession and conveyed a meaningful social message. A concept map competition focused on the pharmacy profession and meaningful social messages provides an excellent platform for students to demonstrate their creativity, knowledge, and communication skills. Below are some ideas and suggestions to make the event more engaging

1. Creativity and Artistic Expression

- **Design Thinking:** You learn to plan and conceptualize your concept map design.
- **Attention to Detail:** Precision in the design is key, helping you to focus on fine details.

2. Manual Dexterity and Hand-Eye Coordination

- The process of creating intricate patterns by hand helps improve fine motor skills and coordination between your hands and eyes.

3. Patience and Focus

- Concept map often requires careful work, which can take hours. Developing patience and focus is essential to completing the design successfully.

4. Problem Solving

- During the design phase, you might encounter challenges such as balancing elements, working with available space. Finding solutions to these challenges enhances your problem-solving ability.

Name of Evaluators: Dr. Santosh Jadhav & Mr. Vipul Trivedi

The Concept Map Competition was a remarkable initiative aimed at fostering creativity, critical thinking, and communication skills among our students. It was inspiring to witness the innovative ideas and meaningful messages that participants conveyed through their designs, highlighting the importance of the pharmacy profession in addressing social and health challenges.

E-WASTE MANAGEMENT PROGRAMME

Date: 09/01/2025

Croma A TATA Enterprise, Baramati role is crucial in ensuring the successful implementation of e-waste management initiatives. Croma A TATA Enterprise, Baramati dedication to organizing awareness campaigns, coordinating collection drives, and collaborating with stakeholders has significantly contributed to the program's success.

An E-Waste Programme is an initiative designed to manage electronic waste (e-waste) by promoting responsible disposal, recycling, and refurbishing of electronic devices. These programs aim to reduce environmental pollution, recover valuable materials, and prevent hazardous substances from harming human health.

Objectives of an E-Waste Programme:

- 1. Proper Disposal & Waste Reduction – Ensure safe and responsible disposal of electronic waste to minimize environmental impact.**
- 2. Resource Recovery & Recycling – Extract valuable materials like gold, silver, copper, and rare earth metals from old electronics.**
- 3. Pollution & Hazard Prevention – Reduce hazardous waste leakage (like lead, mercury, and cadmium) into soil and water sources.**
- 4. Public Awareness & Education – Educate individuals and businesses on the importance of proper e-waste management.**
- 5. Circular Economy Promotion – Encourage refurbishing and reusing electronics to extend product life cycles.**
- 6. Regulatory Compliance – Ensure adherence to national and international e-waste management policies.**
- 7. Sustainable Business Practices – Promote corporate responsibility through manufacturer take-back programs and green policies.**

SEWAGE WATER TREATMENT PLANT FIELD VISIT

Date: 25/01/2025

The visit to the Sewage Treatment Plant (STP) at Baramati was highly informative and beneficial for the participants. The students gained valuable insights into the various stages of sewage treatment, including primary, secondary, and tertiary treatment processes.

The visit helped participants understand the importance of sewage treatment in maintaining water quality, protecting public health, and promoting sustainable urban development. Overall, the visit was well-organized, educational, and interactive, allowing attendees to bridge the gap between theoretical knowledge and practical application.

Objectives of a Sewage Treatment Plant (STP):

1. Environmental Protection:

- Remove contaminants from wastewater before discharging into water bodies.
- Prevent pollution of rivers, lakes, and groundwater.

2. Public Health Protection:

- Eliminate harmful bacteria, viruses, and pathogens to prevent the spread of diseases.
- Ensure safe water for reuse in agriculture or industrial applications.

3. Resource Recovery:

- Recover nutrients (e.g., nitrogen, phosphorus) for use as fertilizers.
- Produce biogas through anaerobic digestion for energy generation.

4. Regulatory Compliance:

- Meet environmental regulations and standards set by government authorities.
- Avoid legal penalties and ensure corporate social responsibility.

5. Odor and Aesthetic Control:

- Minimize unpleasant odors and improve the living conditions around the plant.
- Enhance the aesthetic quality of treated effluent.

PHOTOGRAPHS OF FIELD VISIT

GARBAGE TREATMENT PLANT FIELD VISIT

Date: 25/01/2025

The visit to the Garbage Treatment Plant at Baramati, was highly informative and beneficial for the participants. The students gained valuable insights into the observing the various waste treatment processes such as segregation, recycling, composting, and waste-to-energy conversion provided a deeper understanding of how waste is efficiently processed to minimize environmental impact.

Objectives of a Garbage Treatment

The main objective of garbage treatment is to manage waste efficiently while minimizing its environmental, health, and economic impacts. Below are the key objectives:

1. Environmental Protection

- Reduce land, air, and water pollution caused by improper waste disposal.
- Minimize the impact of hazardous and toxic waste on ecosystems.
- Promote sustainable waste disposal methods, such as recycling and composting.

2. Public Health and Safety

- Prevent the spread of diseases caused by untreated waste.
- Reduce human exposure to toxic chemicals and harmful bacteria.
- Improve sanitation and hygiene in urban and rural areas.

3. Resource Conservation and Waste Reduction

- Promote reduce, reuse, and recycle (3Rs) principles to extend the life of natural resources.
- Recover valuable materials from waste through recycling and upcycling.
- Encourage the use of eco-friendly and biodegradable alternatives.

4. Climate Change Mitigation

- Reduce greenhouse gas emissions, especially methane from landfills.
- Promote waste-to-energy technologies for sustainable energy production.
- Support a transition to a circular economy, reducing dependency on raw materials.

PHOTOGRAPHS OF FIELD VISIT

REPUBLIC DAY OF INDIA

Date- 26/01/2025

Republic Day in India is celebrated on 26th January every year, and in 2025, it falls on a Sunday. This day marks the adoption of the Constitution of India in 1950, making India a sovereign republic.

Republic Day 2025 Highlights:

- **Chief Guest: The government typically invites a foreign dignitary as the chief guest for the grand parade in New Delhi.**

Importance of Republic Day in India (26th January)

Republic Day is one of the most significant national festivals of India, celebrated every year on 26th January. It marks the day when the Constitution of India came into effect in 1950, making India a sovereign, socialist, secular, and democratic republic.

1. Adoption of the Constitution

On 26th January 1950, India officially adopted its Constitution, replacing the Government of India Act (1935). This established democratic governance and granted fundamental rights to citizens.

2. Sovereignty and Democracy

Republic Day signifies India's transition from a dominion under British rule to a fully independent republic with an elected government, where the people have the power to elect their leaders.

3. Tribute to Freedom Fighters

The day is a reminder of the sacrifices made by Mahatma Gandhi, Bhagat Singh, Subhas Chandra Bose, Sardar Patel, and many others who fought for India's independence and helped shape its democratic foundation.

PHOTOGRAPHS OF EVENT

MAHATMA GANDHIJI DEATH ANNIVERSARY

Date: 30/01/2025

On January 30, 1948, at 5:17 PM, Nathuram Godse, a Hindu extremist, shot Mahatma Gandhi at Birla House (now Gandhi Smriti) in New Delhi while he was on his way to a prayer meeting.

- **Aftermath:** His death sent shockwaves across the world. Jawaharlal Nehru, India's first Prime Minister, announced the tragic news to the nation, calling him "the light that has gone out of our lives."
- **Martyrs' Day:** Every year on January 30, India observes Martyrs' Day by paying tribute to Gandhi and other freedom fighters. The President, Prime Minister, and other dignitaries lay wreaths at Raj Ghat, Gandhi's memorial in Delhi, and observe a two-minute silence at 11 AM.

Honoring Gandhi's Legacy

- To pay tribute to Mahatma Gandhi's immense contributions to India's independence and his philosophy of truth (*Satya*) and non-violence (*Ahimsa*).

To honor all the martyrs who sacrificed their lives for the nation's freedom and well-being. This is why January 30 is observed as Martyrs' Day (Shaheed Diwas) in India.

Spreading the Message of Unity and Tolerance

- To remind people of Gandhi's belief in religious harmony, social unity, and tolerance, which are crucial in a diverse country like India.

Encouraging Ethical and Simple Living

- To inspire individuals to follow Gandhi's principles of simplicity, self-reliance, and ethical living in their personal and professional lives.

Educating Future Generations

- To ensure that young generations understand Gandhi's teachings and their relevance in today's world through school programs, discussions, and cultural events.

Observing Silence and Paying Respects

- A two-minute silence is observed at 11 AM across India to reflect on Gandhi's sacrifices and contributions.

Reaffirming Commitment to National and Social Welfare

- To encourage citizens to participate in social service, environmental conservation, and community welfare activities in Gandhi's spirit.

FIELD VISIT TO
SILVER JUBILEE SUB DISTRICT HOSPITAL, BARAMATI

Date: 01/02/2025

Our recent field visit to the Silver Jubilee Sub-District Hospital, Baramati, was an insightful and enriching experience for all participants. The visit provided a unique opportunity to observe firsthand the practical challenges and successes of a secondary-level healthcare facility.

The interactive sessions and discussions with the hospital management and frontline healthcare providers were particularly commendable. The visit underscored the critical role of infrastructure, resource allocation, and staff training in ensuring quality healthcare.

1. To Understand the Organizational Structure:

- **Observe the administrative hierarchy and management system of the hospital.**
- **Understand the roles and responsibilities of healthcare professionals across different departments.**

2. To Assess Healthcare Service Delivery:

- **Examine the range of medical services provided, including outpatient, inpatient, emergency, and specialized care.**
- **Evaluate patient flow, registration processes, and clinical management practices.**

3. To Evaluate Hospital Infrastructure and Resources:

- **Assess the availability and condition of medical equipment, diagnostic tools, and essential supplies.**
- **Observe the adequacy of physical infrastructure, including wards, operation theatres, and support services.**

4. To Observe the Implementation of Public Health Programs:

- **Review the execution of national health programs (e.g., maternal and child health, immunization, tuberculosis control).**

PHOTOGRAPHS OF FIELD VISIT

FIELD VISIT TO
NIRAMAYA AYURVEDIC DISPENSARY, BARAMATI

Date: 01/02/2025

Ayurvedic traditional medicine dispensing

The field visit to an Ayurvedic traditional medicine dispensing facility aimed to provide practical exposure to the preparation, dispensing, and administration of Ayurvedic medicines. The visit enabled participants to understand the traditional methods of formulation, quality control, patient counseling, and the integration of Ayurveda into modern healthcare practices. The objectives may include:

1. Understanding the Dispensing Process

- Observing how Ayurvedic medicines are dispensed to patients.
- Learning about the standard operating procedures for medicine preparation and distribution.
- Understanding the role of the pharmacist or dispenser in ensuring the correct formulation and dosage.

2. Identifying Common Ayurvedic Formulations

- Studying various Ayurvedic formulations such as churnas (powders), kwathas (decoctions), asavas (fermented liquids), and ghrithas (medicated ghee).
- Learning about the sources of raw materials used in Ayurvedic medicines.

3. Ensuring Quality and Safety

- Understanding the quality control measures followed in the dispensing process.
- Observing how Ayurvedic medicines are stored to maintain potency and efficacy.
- Learning about labeling, packaging, and expiry considerations.

4. Patient Interaction and Counseling

- Observing how Ayurvedic practitioners counsel patients on medicine usage and lifestyle changes.
- Understanding the role of dietary and lifestyle modifications in Ayurvedic treatment.

5. Legal and Ethical Considerations

- Learning about the regulatory framework governing Ayurvedic medicine dispensing.
- Understanding ethical considerations in prescribing and dispensing Ayurvedic medicines.

PHOTOGRAPHS OF FIELD VISIT

FIELD VISIT TO
PATANJALI CHIKASTALAYA STORE, BARAMATI

Date: 01/02/2025

Homeopathy Traditional Dispensing Field Visit

A homeopathic dispensing field visit aims to ensure proper dispensing, patient education, and adherence to regulatory guidelines. Here are some key objectives:

1. Understanding Homeopathic Pharmacy Operations:

Observe the preparation, storage, and dispensing of homeopathic medicines. Learn about different forms of homeopathic remedies such as dilutions, mother tinctures, globules, and triturations.

2. Learning Medicine Preparation Techniques:

Gain hands-on experience in potentization, succussion, and trituration methods. Understand the role of alcohol, sugar pills, and lactose powders in homeopathic medicine formulation.

3. Enhancing Dispensing Skills:

Learn how to dispense medicines accurately based on prescriptions. Understand dosage guidelines, labeling, and proper packaging techniques.

4. Understanding Regulatory and Quality Standards:

Familiarize with Good Manufacturing Practices (GMP) and quality control measures in homeopathy. Learn about legal requirements, ethical considerations, and regulatory guidelines for homeopathic pharmacy operations.

GUEST LECTURE ON HOW TO WRITE RESEARCH PROPOSALS

Date- 01/02/2025

The guest lecture by Prof. (Dr.) S. H. Pawar was an enriching and enlightening experience for all participants. His detailed insights into the research grant application process equipped attendees with the knowledge and confidence to seek funding opportunities effectively.

The Anekant College of Pharmacy expressed its heartfelt gratitude to Prof. Pawar for sharing his expertise and inaugurating the research lecture series. The event concluded with a vote of thanks, recognizing his invaluable contribution and reaffirming the institution's commitment to fostering a research-driven academic environment.

This lecture series aims to inspire and guide aspiring researchers and faculty members in securing research grants to support their academic and scientific endeavors. Prof. Pawar's vast experience in research and innovation made him an ideal speaker to provide insights into the competitive process of obtaining grants.

Identifying Suitable Funding Agencies – Researchers must align their proposals with the objectives of funding organizations such as government agencies, private foundations, and international bodies.

Writing a Strong Research Proposal – A well-structured proposal should clearly define the problem statement, research objectives, methodology, expected outcomes, and potential impact.

PHOTOGRAPHS OF GUEST LECTURE

FIELD VISIT TO NAKSHTRA GARDEN

(THE MEDICINAL PLANT GARDEN)

Date: 08/02/2025

Medicinal Plant Garden Visit

Visiting a medicinal plant garden offers an opportunity to explore various plant species, understand their therapeutic uses, and learn about conservation efforts. Many of these gardens also contribute to preserving indigenous knowledge and promoting sustainable herbal medicine practices.

The specific objectives include:

- 1. Educational Awareness – To enhance knowledge about the medicinal properties, uses, and significance of various plants in traditional and modern medicine.**
- 2. Scientific Learning – To understand the botanical characteristics, chemical constituents, and pharmacological benefits of medicinal plants.**
- 3. Conservation and Sustainability – To learn about efforts in preserving endangered and rare medicinal plant species and promoting sustainable harvesting practices.**
- 4. Practical Application – To gain hands-on experience in identifying, cultivating, and utilizing medicinal plants for healthcare and research.**
- 5. Cultural and Historical Insights – To explore the traditional and indigenous uses of medicinal plants across different cultures.**
- 6. Promotion of Herbal Medicine – To encourage the integration of herbal medicine into healthcare practices and support its role in complementary and alternative medicine.**
- 7. Environmental Awareness – To understand the ecological importance of medicinal plants and their role in biodiversity conservation.**

PHOTOGRAPHS OF EVENT

FIELD VISIT TO WATER TREATMENT PLANT

SUB DIVISION MIDC BARAMATI

Date: 08/02/2025

The field visit to the water treatment plant at SUB DIVISION MIDC BARAMATI was an enriching and educational experience for all participants. Students gained valuable insights into the water purification process, resource management, and environmental sustainability.

The visit fostered curiosity and provided hands-on learning opportunities, enhancing their understanding of theoretical concepts. Special thanks to the plant officials for their informative guidance and hospitality. Such experiences contribute significantly to holistic learning and environmental awareness among students.

Objectives of a Water Treatment Plant:

- 1. Understanding the Water Treatment Process**
 - Observe and learn about the different stages of water treatment, including coagulation, flocculation, sedimentation, filtration, and disinfection.
 - Understand how raw water is converted into potable water.
- 2. Familiarization with Equipment and Technology**
 - Identify key machinery used in the treatment process, such as pumps, clarifiers, sand filters, and chlorination units.
 - Learn about automation and monitoring systems used to ensure water quality.
- 3. Water Quality Monitoring and Testing**
 - Understand the importance of water quality standards and parameters like pH, turbidity, dissolved oxygen, and microbial contamination.
 - Observe how water samples are collected and analyzed in the laboratory.
- 4. Regulatory and Safety Compliance**
 - Learn about local and international water quality regulations and guidelines.
 - Understand the safety measures in place for plant workers and visitors.
- 5. Environmental and Sustainability Practices**
 - Explore how the plant manages waste and sludge generated during the treatment process.

PHOTOGRAPHS OF FIELD VISIT

INDUSTRIAL VISIT TO

VISHWACHAITANYA AYURVEDIC RASSHALA PVT. LTD

Date- 15/02/2025

The visit to the Vishwachaitanya Ayurvedic Rasa Shala , Katphal, Baramati , was highly informative and beneficial for the participants. The students gained valuable insights into the observing the various methods of manufacturing of dosage forms, packaging units, storage, Quality controls department The visit reinforced the significance of role and working of pharmacist in various department of industrial. The dedication of the staff and the advanced technologies used at the industrial units were truly commendable. Overall, the visit was well-organized, educational, and interactive, allowing attendees to bridge the gap between theoretical knowledge and practical application.

The main objective of industrial visit to understand manufacturing various pharmaceutical dosage form.

1. Educational Purpose:

- Enhances students' understanding of industrial operations.
- Provides insight into manufacturing processes, production lines, and quality control.

2. Skill Development:

- Improves technical knowledge and problem-solving skills.
- Encourages critical thinking and innovation.
- Enhances communication and professional networking skills

3. Industry Exposure:

- Offers students a glimpse into workplace culture and expectations.
- Allows interaction with industry experts and professionals.
- Helps in understanding the latest industry trends, technologies, and practices Good Manufacturing Practices (GMP) in action, ensuring compliance with safety and hygiene standards.

Date: 20/02/2025

BETWEEN

**Anekant Education Society's
COLLEGE OF PHARMACY**

Tandulwadi Road, (Jain Minority Institute. T.C. College Campus)
Baramati, 413102. (Herein after referred as Institute)

AND

VISHWACHAITANYA AYURVEDIYA RASASHALA PVT. LTD,

Sector No. 108, Near PVP, Katphal, MIDC, Baramati, Tal: Baramati, Dist.: Pune 413133.
(Here in after referred as Company)

PURPOSE:

This MoU is executed to promote and strengthen the industry-institute interaction for mutual benefit. Institute and company will share the views that present day pharmaceutical industry adopts modern & innovative technologies and requires highly skilled competent and motivated workforce. Institute and company feel need to work together for developing standard for various levels of competencies as per the demand of industry.

ABOUT COMPANY:

VISHWACHAITANYA AYURVEDIYA RASASHALA established in 2011 is a leading and expanding ayurvedic company in Baramati, Dist.: Pune, Maharashtra under a leadership of Dr. S. T. Khade. It is one of the leading manufacturer and supplier of Ayurvedic Medicines. Company has been established to bring 100% certified medicines that are fit for consumption and use. The Medicines are manufactured under the watchful supervision of the experts, using qualitative raw material. "Rukmangd ayurved Patrika" is the magazine that company publishes quarterly, which is appreciated by many customers across India.

GUEST LECTURE ON

INTRODUCTION TO SWAYAM PORTAL

Date- 25/02/2025

In today's digital era, online learning platforms play a crucial role in enhancing the knowledge and skills of educators and professionals. Recognizing this, the Faculty Empowerment Cell of College of Pharmacy organized a guest lecture on "Introduction to SWAYAM Portal" as part of the

Faculty Development Program (FDP). The session aimed to provide faculty members and staff with insights into the SWAYAM (Study Webs of Active Learning for Young Aspiring Minds) Portal, an initiative by the Government of India to promote online education.

Following the presentation, an interactive Q&A session was conducted, where faculty members and staff raised queries regarding course accreditation, assessment patterns, and integration with academic performance. Dr. Dixit addressed these questions with practical examples and guidance.

Participants expressed enthusiasm for utilizing SWAYAM for continuous professional development.

They appreciated the insights shared and requested follow-up workshops for in-depth guidance on using online learning platforms effectively.

Benefits of SWAYAM for Faculty and Staff:

- o Faculty members can enhance their teaching skills through specialized courses.**
- o Staff members can develop technical and administrative skills relevant to their roles.**
- o Earning SWAYAM certifications can help in career advancement and promotions.**
- o Integration of SWAYAM Courses in Academic Curriculum: The speaker also emphasized the National Education Policy (NEP) 2020, which encourages the adoption of online learning resources.**

NATIONAL SCIENCE DAY 2025

Date- 28/02/2025

National Science Day is celebrated in India on February 28 each year to commemorate the discovery of the Raman Effect by Sir C.V. Raman on February 28, 1928. He was later awarded the Nobel Prize in Physics in 1930 for this discovery.

- **To spread awareness about the importance of science in daily life.**
- **To encourage scientific thinking and innovation.**
- **To inspire young minds to pursue careers in science and technology.**
- **To honor the contributions of Indian scientists.**
- **Commemorating the Discovery of the Raman Effect**
 - **Honoring Sir C.V. Raman's contribution to science and celebrating his discovery of the Raman Effect on February 28, 1928.**
- **Promoting Scientific Awareness**
 - **Spreading awareness about the role of science and technology in daily life and national development.**
- **Encouraging Scientific Temper**
 - **Inspiring critical thinking, innovation, and problem-solving among students, researchers, and the general public.**
- **Recognizing Scientific Achievements**
 - **Highlighting and rewarding scientific discoveries, research, and innovations by Indian scientists and institutions.**
- **Inspiring Young Minds**
 - **Motivating students to take up science, technology, engineering, and mathematics (STEM) as career paths.**
- **Bridging Science and Society**
 - **Showcasing how scientific advancements can solve real-world problems and improve healthcare, environment, energy, and industry.**

DEMONSTRATION ON SAFETY AND FIRST AID IN LABORATORIES

Date- 07/03/2025

Laboratories are environments where various chemicals, equipment, and experimental procedures are handled. While they are designed for research, learning, and experimentation, they also present potential hazards such as chemical spills, fires, electrical shocks, and injuries from sharp objects or broken glassware. To minimize these risks, laboratory safety protocols and first aid practices are crucial.

The demonstration of safety and first aid in laboratories is rooted in the need to:

1. **Prevent Accidents:** Educating students, researchers, and staff about safe practices helps reduce the risk of accidents and injuries.
2. **Emergency Preparedness:** Demonstrations equip individuals with the skills to respond quickly and appropriately during emergencies, reducing the severity of injuries.
3. **Compliance with Safety Standards:** Regulatory bodies like OSHA (Occupational Safety and Health Administration) and ISO (International Organization for Standardization) enforce safety standards, making it essential for institutions to conduct regular training and demonstrations.
4. **Promote Awareness:** Safety demonstrations emphasize the correct usage of protective gear, handling of chemicals, and emergency equipment like fire extinguishers, eyewash stations, and safety showers.
5. **Develop First Aid Skills:** Knowing how to provide immediate first aid for burns, cuts, chemical exposure, or fainting ensures a prompt and effective response.

PHOTOGRAPHS OF ACTIVITY

INTERNATIONAL WOMEN'S DAY

Date- 08/03/2025

International Women's Day (IWD) is celebrated annually on March 8 to honor the achievements of women across social, economic, cultural, and political spheres. It is also a day to advocate for gender equality and women's rights globally.

IWD 2025 Theme

Each year, the UN and other organizations set a theme to highlight specific issues. The official theme for IWD 2025 has not yet been announced, but it will likely focus on critical areas such as women's empowerment, gender equality, or social justice.

Why It Matters

- **Raises awareness about gender inequality and discrimination.**
- **Celebrates women's achievements in various fields.**

Encourages action for a more inclusive and equitable world

Name of Guest Speaker – Adv. Sneha Vijay Bhapkar

The objective of International Women's Day (IWD) 2025 is to promote gender equality, celebrate women's achievements, and advocate for women's rights worldwide. The day serves as a global platform to raise awareness about ongoing challenges while inspiring action for positive change.

Key Objectives of IWD 2025

1. Celebrate Women's Achievements

- **Recognize and honor contributions made by women in politics, business, science, education, sports, and the arts.**
- **Share success stories to inspire future generations.**

2. Raise Awareness About Gender Inequality

- **Highlight issues like the gender pay gap, violence against women, lack of leadership opportunities, and discrimination.**
- **Promote education and awareness campaigns to challenge biases and stereotypes.**

3. Advocate for Women's Rights and Empowerment

- **Encourage policies and laws that support equal opportunities in the workplace, education, and society.**

PERSONALITY DEVELOPMENT PROGRAMME

Date: 12/03/2025

PERSONALITY DEVELOPMENT PROGRAMME

Objective(s) of the Activity:

- 1. Enhance Self-Awareness**
 - Help students understand their strengths, weaknesses, and areas for improvement.
 - Encourage self-reflection for personal growth.
- 2. Develop Effective Communication Skills**
 - Improve verbal and non-verbal communication.
 - Enhance public speaking and active listening skills.
- 3. Boost Confidence and Self-Esteem**
 - Overcome fear, self-doubt, and hesitation.
 - Develop a strong and charismatic personality.
- 4. Encourage Positive Thinking & Attitude**
 - Cultivate an optimistic approach to life and challenges.
 - Learn stress management and resilience techniques.
- 5. Enhance Personal Grooming and Etiquette**
 - Teach the importance of appearance, body language, and manners.
 - Develop a professional and socially acceptable demeanor.

It is a great pleasure to witness such an engaging and insightful Personality Development Programme today. This session has provided our students with valuable lessons on self-confidence, effective communication, and personal growth.

I would like to extend my sincere gratitude to our esteemed guest speaker Prof. S. V. Rathod (Department of English MA. NET. SET. M.Phil. (PhD. In process) for sharing their expertise and inspiring our students with practical strategies for self-improvement. The interactive activities and discussions have truly made this session impactful and thought-provoking.

INDUSTRY GUEST LECTURE ON
"CAREER OPPORTUNITIES OF PHARMACEUTICAL & LIFE SCIENCE
STUDENTS IN IT SECTORS"

Date: 13/03/2025

The pharmaceutical and life sciences industries have traditionally focused on drug discovery, clinical research, and healthcare solutions. However, with rapid advancements in technology, digital transformation, and artificial intelligence (AI), the demand for IT professionals in the pharma and healthcare sectors has grown significantly

Objective(s) of the Activity:

The primary objective of this guest lecture on "Career Opportunities for Pharmaceutical & Life Science Students in IT Sectors" is to:

1. Educate students about the growing role of information technology in pharmaceuticals and life sciences.
2. Highlight career pathways where pharma and life sciences graduates can leverage IT skills, such as clinical data management, bioinformatics, AI-driven drug discovery, healthcare analytics, and regulatory technology.
3. Introduce key IT tools and technologies used in the industry, including AI, machine learning, big data, cloud computing, blockchain, and automation in healthcare.
4. Bridge the gap between traditional pharma roles and tech-driven opportunities, encouraging students to develop skills in medical coding, data analysis, and digital health solutions.
5. Provide guidance on how to transition into IT-related roles through certifications, online courses, internships, and networking.

It's our pleasure to welcome you all to this insightful guest lecture on "Career Opportunities for Pharmaceutical & Life Science Students in IT Sectors." In today's rapidly evolving world, the fusion of technology with pharmaceuticals and life sciences is opening new doors for innovation, efficiency, and career growth.

Heartfelt gratitude to our esteemed guest speaker Mr. Siddharth Badhe, Business Development Executive, Sahyadri Software. Pune for sharing their expertise and experiences with us today. I encourage all students to actively participate, ask questions, and make the most of this opportunity to shape their future careers.

FIELD VISIT TO

NAVKAR APOTEK LLP, BARAMATI

Date: 15/03/2025

Pharmacy Wholesale Store LLP Visit:

Purpose of the Pharmacy Wholesale Store LLP Visit:

The purpose of this field visit is to provide students with practical exposure to the pharmaceutical wholesale industry by understanding key operational areas such as:

1. **Supply Chain Management** – Observing how medicines are procured, stored, and distributed efficiently.
2. **Regulatory Compliance** – Understanding the legal framework, licensing, and quality control measures essential in pharmaceutical distribution.
3. **Inventory Management** – Learning about stock management techniques like FIFO (First In, First Out) and FEFO (First Expiry, First Out).
4. **Cold Chain Logistics** – Exploring how temperature-sensitive medicines (e.g., vaccines, insulin) are stored and transported.
5. **Order Processing & Distribution** – Understanding the role of wholesalers in ensuring timely delivery of medicines to pharmacies and hospitals.
6. **Industry Exposure & Career Insights** – Providing students with a real-world perspective on careers in pharmaceutical distribution and supply chain management.

This visit bridges the gap between academic knowledge and industry practices, equipping students with valuable insights into the functioning of pharmaceutical wholesale businesses.

The field visit to Navkar Apotek LLP Baramati was a highly informative and engaging experience for the students. It provided them with practical insights into the pharmaceutical wholesale industry, covering essential aspects such as supply chain management, regulatory compliance, and distribution processes.

The visit successfully bridged the gap between classroom learning and real-world applications, allowing students to observe firsthand how medicines are procured, stored, and distributed efficiently. The interaction with industry professionals helped them understand the importance of regulatory standards, inventory management techniques, and logistics operations in ensuring the availability of quality medicines.

GUEST LECTURE ON
ENTREPRENEURSHIP DEVELOPMENT CELL (EDC)

Date 15/03/2025

The Entrepreneurship Development Cell (EDC) concept emerged as a response to the growing need for fostering entrepreneurship, innovation, and self-employment among students and professionals. Traditionally, educational institutions focused on preparing students for jobs in established industries. However, with increasing globalization, rapid technological advancements, and evolving market dynamics, there has been a shift toward encouraging self-reliance, job creation, and innovation-driven enterprises.

The idea of structured entrepreneurship development gained prominence in the mid-20th century when economists recognized the role of small businesses and startups in economic growth.

Objective(s) of the Activity:

1. Encourage Innovation

- Foster a culture of creativity and problem-solving among students.

2. Promote Entrepreneurship

- Inspire students to consider entrepreneurship as a viable career option.

3. Skill Development

- Provide training in business planning, financial management, marketing, and leadership.

4. Mentorship & Guidance

- Connect budding entrepreneurs with industry experts and successful business leaders.

5. Startup Support

- Offer incubation facilities, funding assistance, and legal guidance to startups.

"It is a privilege to have had this insightful session on 'Entrepreneurial Opportunities in Pharmacy' as part of our Entrepreneurship Development Cell initiative. Today's lecture has provided our students with valuable knowledge about the various entrepreneurial avenues in the pharmaceutical sector, inspiring them to think beyond traditional career paths. We extend our heartfelt gratitude to The Director, Mr. Gaurav Bankar, Navkar Apotek LLP, Baramati for sharing their expertise, real-world insights, and motivational guidance.

GUEST LECTURE UNDER STUDENT MENTORING SYSTEM

Date: 15/03/2025

Background:

1. Evolution of Mentoring in Education

- Mentoring has been an essential part of academic and professional growth for centuries.
- In the healthcare sector, including pharmacy, mentoring plays a critical role in shaping future professionals.

2. Need for a Mentoring System in Pharmacy

- Pharmacy education is rigorous, involving theoretical knowledge, practical skills, and professional ethics.
- A structured mentoring system bridges the gap between students and faculty/professionals, providing support beyond traditional classroom teaching.

Objective(s) of the Activity:

The primary goal of a Student Mentoring System is to support and guide pharmacy students in their academic, professional, and personal development. The specific objectives include:

1. Academic Support & Guidance

- Help students understand complex pharmaceutical concepts.
- Provide study strategies and exam preparation tips.

2. Career Development & Professional Growth

- Guide students in choosing the right career path (community pharmacy, hospital pharmacy, pharmaceutical industry, research, regulatory affairs, etc.).
- Offer insights into internships, fellowships, and job opportunities.

3. Skill Development

- Enhance communication, leadership, and teamwork skills.
- Develop problem-solving and decision-making abilities.

4. Personal & Emotional Support

- Help students manage stress, anxiety, and academic pressure.
- Foster self-confidence and motivation.

5. Ethical and Professional Development

- Instill a sense of responsibility, professionalism, and ethics in pharmacy practice.

It is a great pleasure to conclude this insightful session on the Student Mentoring System for Pharmacy Students. Today's lecture has highlighted the immense value of mentorship in shaping the academic, professional, and personal growth of our students.

We sincerely thank The Director, Navkar Apotek LLP, Mr. Gaurav Bankar for sharing their knowledge and experience with us.

TREE PLANTATION ACTIVITY

Date- 18/03/2025

Tree plantation activities have been an integral part of environmental conservation efforts for centuries. Governments, NGOs, schools, businesses, and individuals participate in tree-planting initiatives to combat deforestation, enhance biodiversity, and contribute to a healthier environment. The growing concerns over climate change, urbanization, and environmental degradation have made tree plantation programs more critical than ever.

Tree plantation activities are undertaken with various environmental, social, and economic objectives. These objectives help in promoting sustainability, restoring ecological balance, and improving the quality of life.

1. Environmental Objectives

- Increase Green Cover: Restore forests and expand vegetation in urban and rural areas.**
- Improve Air Quality: Trees absorb pollutants and release oxygen, making the air cleaner.**
- Combat Climate Change: Trees act as carbon sinks, reducing the impact of greenhouse gases.**
- Prevent Soil Erosion: Tree roots bind soil, preventing degradation and landslides.**

2. Social Objectives

- Promote Environmental Awareness: Educate communities, students, and businesses on the importance of trees.**
- Encourage Community Participation: Engage individuals in conservation efforts and civic responsibility.**

3. Economic Objectives

- Support Sustainable Livelihoods: Provide resources like timber, fruits, medicinal plants, and fodder.**

4. Disaster Management and Land Restoration

- Restore Degraded Lands: Revitalize barren or deforested areas.**
- Reduce Natural Disasters: Protect against floods, landslides, and desertification.**

PHOTOGRAPHS OF TREE PLANTATION

GUEST LECTURE ON
CIBER CRIME, SEXUAL HARASSMENT, ANTIRAGGING

Date- 17/03/2025

Under the guidance of the DYSP Baramati, the Shakti Pathak initiative was established. During a visit by police officers, Mrs. Kadam provided valuable insights into various laws concerning ragging, sexual harassment, and cybercrime.

On this occasion, all the distinguished guests were honoured, and they actively participated in a tree plantation drive, showing their support for the cause.

Key Points of Lecture

- Contact local police stations or women's helplines for immediate help.**
- Use official portals like cybercrime.gov.in for cyber complaints.**
- Reach out to Internal Complaints Committees (ICCs) for workplace harassment.**
